> From our Extra of last Friday Evening. DISASTER

The Spanish Steamship Guadalquivir, Capt MANUEL LABARDORA, arrived at this port about 11 o'clock this morning, in distress.

We learn that the Guadalquivir is burthen 600 tons; that she left Havana on the 20th February, in ballast for New York, for the purpose of undergoing some repairs .- Experienced strong Northardly winds until within 100 miles of New York. On the night of the 26th Feb., at 12 o'clock, experienced a severe on board for the India Trade, they intend to gale from N. E .- endeavored to head it that night and next day, a tremendous heavy sea rolling during the whole time, which carried away bulwarks and swept the decks, together the 8th inst, and the Captain, one Ashe, in with bulkhead, which supported the hurricane deck, and the Steamer nearly filled with water.

The Captain called a consultation of the

officers, and it appearing evident that the ship could not stand the sea much longer on her present course, it was determined to scud her. The Engines proved faithful, under the superintendence of Mr. Downing, Chief Engineer, who, we learn, is highly commended by the take out all the gunpowder. And if that is Captain, for the praiseworthy efforts he used for the safety of the Steamer. The Steamer was scudded for two days-expecting every moment to be the last. 100 miles South of Cape Henry, fell in with Pilot Boat Fashion, of Baltimore. Owing to the heavy sea, it was impossible for the Pilot Boat to go alongside the ship, but through the ur- letters and orders from hence to England and gency of the Engineer, one of the Pilots, Mr. JOHN A. THOMPSON, of Baltimore, was induced to fasten a rope to his body and drop himself into the water, and by this means, thro' ply till late in the Summer, and with this they great exertions, he succeeded in getting on board of the steamer. While Mr. T. was in design against them, and I can't tell what may the water, the two vessels unfortunately be the results, for they are a very jealous susof his life. He was forced to sink himself the Chicesaw Indians that the white people below the bottom of the Steamer, to prevent being crushed to death. He, however, suc- Lordship sees the state we are in every resceeded in getting on board the steamer, un- pect, and no King's sloop or cruizer heard of hurt. As the two boats come together, three yet. hands on board the Fashion jumped on board the Steamer, and Mr. Thompson had great difficulty in getting them back. They were, however, placed in a yawl, and succeeded in reaching the Fashion in safety. The Steamer then bore up for Cape Henry, but the sea making a complete breach fore-and-aft, and the ship being in danger of going down every moment, her course was shaped for Charleston. On arriving off Cape Fear, it was found that her fuel was giving out, and she put into this port in the above condition.

WILMINGTON, N. C., March 2. 1849. To Mr. J. A. Thompson, Baltimore Pilot: SIR: I cannot omit this opportunity of returning to you the heartfelt thanks of myself, the American Colonies are declared to be in a the Captain, officers and crew of the Spanish state of actual rebellion, we conceive, that all Steamer Guadalquivir, for the timely assis- laws and commissions confirmed by and detance you rendered us, while placed in the very perilous and helpless position, at sea, during former civil constitution of these Colonies for the gale of the 26th and 28th Feb. Were I to the present wholly suspended. To provide, neglect to pay this tribute of thanks to in some degree for the exigences of this counyou for the aid which you rendered, despite try in the present alarming period, we deem it the hazard and jeopardy of your own life, I would be acting contrary to my feelings. But, sir, not to enumerate the dangers you under- heretofore granted by the Crown to be exerwent, rest assured that you will long be remembered by myself, and, I doubt not, by all others on board the Steamer.

Very respectfully, your ob't serv't, DANIEL DOWNING, Chief Engineer.

The Imperial President.—A correspondent of the Courier des Etats Unis states that President Bonaparte, in one of his letters which preceded the resignation of the Minister of the Interior, M. Leon de Malleville, made use of yet provided others, we judge it necessary for to advise with you on the measures proper to this language: " A man who, last Sunday, if the better preservation of good order, to form he had chosen, could easily have caused him- certain Rules and Regulations for the internal self to be proclaimed Emperor, has clearly a Government of this County, until laws shall right to declare and to enforce his will." M | be provided for us by the Congress. de Malleville persisted in refusing compliance IV. That the Inhabitants of this County do with the President's demand, but sent in his meet on a certain day appointed by this comresignation, accompanied with this reply: "It mittee, and having formed themselves into me to omit no exertion in my power that may is possible that the President of the Republic Nine companies (to wit,) eight in the County be conducive to these ends, and I trust, Genhad last Sunday every facility to cause him- and one in the Town of Charlotte, do chuse tlemen, that I may expect from your duty to self to be proclaimed Emperor—but, 1 am a Colonel and other military officers by virtue His Majesty and zeal for his service and the convinced, that although proclaimed, he never of this choice, and independent of the Crown could have been Emperor-for he would not of Great Britain, and former constitution of have found a single man of any worth who this Province. would have consented to take part in such a V. That for the better preservation of the

> and I shall leave no means untried to defeat their purposes: the lenity of Government has been so much to that people that they forget entirely their own weakness, and are blusterin r treason, while Charlestown, that is the head and heart of their boasted Province, might be destroyed by a single Frigate and the country thereby reduced to the last distress. I lament to say it my Lord, and most sincerly grieve to be occasion for it, but I must avow to your Lordship, it is to me at this time evident, and out of all doubt, that reason and argument can never restore the just power and authority of Government in America. The people now freely talk of hostility towards Britain in the language of aliens and avowed enemies; and I fear the means that British spirit resorts to at last, for the chastisement of her more natural foes, can only now reclaim her most unnatural children in these Colonies to a proper sense of their duty; and I must add too my Lord, that in charity to them and in duty to my King and country, I think myself bound to give it as my sincere opinion. that the rod of correction cannot consistently with the good and interest of either, be well spared, if it is an object to reclaim the Colonies of America to obedience to the just auhority of His Majesty and the Parliament of Great Britain. Humanity, as well as policy, in my mind, my Lord, urges that the work be set about with the vigour becoming the glorious and invincible spirit of the British Nation and without a moment's delay. Altho' by my separate despatch of the 18th of May had given my humble opinion to your Lordhip that the Meeting of the Assembly of this Province, in order to bring under its consideration the Resolution of the House of Com nons of the 27th day of February last, while the Philadelphia Congress was sitting, and which was not enjoined by your Lordship's despatches referring to that Resolution, would e to no sort of purpose; yet seeing soon af terwards that His Majesty's Governors in other Provinces had called the respective Assemblies expressly with that design, I issued the writs for calling an Assembly which had been postponed by the advice of the Council on account of the heats prevailing in the Province, at the time of the dissolution of the late Assembly, and the General Elections were accordingly made on the 23rd of last month. since which as your Lordship will see in the minutes of the Council, that Board has upon the principles of my first opinion, stated to your Lordship in my separate despatch above referred to, advised me to prorogue the new ell.

fore which I have no doubt I shall have good reason to prorogue it further. I am bound to return your Lordship my best acknowledgements for the attention you have been pleased to give to my representations of the misconduct of the Members of the Council here. At the same time, I must freely own The unhappy situation of this Province ren- to your Lordship, that I fear it will be difficult had the greatest reason to complain, have by loyal adherence to Government in this time of disaffection, restored themselves to my regard; and I believe it may be found difficult to find fitter people to supersede the others. REPUBLICATION OF The London Quarterly Review, The Edinburgh Review,

The Westminster Review, Blackwood's Edinburgh Magazine.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs, they stand far in advance of any works of a similar stamp now pubmarked by a dignity, candor, and forbearance, not often found in works of a party character.

They embrace the views of the three great parties in England-Tory, Whig, and Radical-"Blackwood" and the "London Quarterly" are Tory; the " Edinburgh Review" Whig; and the "Westminster Review" Radical. The "North British Review" is more of a religious character, having been originally edited by Dr. Chalmers, son-in-law, Dr. Hanna, associated with Sir David RUP." But such is not the srticle known as the XIX. That the eight Militia companies in themselves into a Company for the purpose of Brewster. Its literary character is of the very nighest order. The "Westminster," though re The South Carolina Congress bath sent re- printed under that title only, is published in Engcruiting parties into this Province to raise land under the title of the "Foreigh Quarterly men, but I hope they will be disappointed in and Westminster," it being in fact a union of the their expectation of great succor from hence; two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage by this combination, of uniting in one work the best features of both as heretofore issued. The above Periodicals are reprinted in New

York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals. Blackwood's Magazine being an exact fac-simile of the Edinburgh edition.

For any one of the four Reviews, For Blackwood's Magazine For Blackwood and three Reviews, For Blackwood and the four Reviews,

Payments to be made in all cases in advance. EARLY COPIES.

Our late arrangement with the British publishers of Blackwood's Magazine, secures to us early sheets of that work, by which we are enabled to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers, we pay so large a consideration, that we may be compelled to raise the price of the Magazine. Something may therefore be gained by subscribing early.

tually attended to. S. P. POLLEY. Dec 1, 1846 .- [12-6m

CAUTION EXTRA

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, canals, and the like. Yet ho assumes the title of Dr., for the purpose of gaining credit for deceived, and purchase none but the GENUINE ORIGI-NAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness, his family coat of arms, and his

signature across the coat of arms.

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla Old Dr. Townsend is now about 70 years of age, and has ong been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL " TOWNSEND SAR SAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful

HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION throughout the length and breadth of the land, especiall; as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal prolished, while the political complexion of each is perties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, i they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these colatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter is the root than from any thing else; they can then strain this insipid or vapid Equid, sweeten with sour molasses and now, since his death, being conducted by his and then call it "SARSAPARILLA EXTRACT or SY-GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

Sarsaparilla coot are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable o losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Cure of innumerable diseases. Hence the reason why we hear commendations on ever

side in its favor by men, women, and children. We find it CONSUMPTION, DYSPEPSIA, and LIVER COM-PLAINT, and in RHEUMATISM, SCROFULA PILES, COSTIVENESS, all CUTANEOUS ERUP-TICNS, PIMPLES, BLOCTHES, and all affections IMPURITY OF THE BLOOD.

from Indigestion, from Acidity of the Stomach, from unequa. circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Colds and Coughs and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs, throat, and every other part. But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of FEMALE COMPLAINTS. It works wonders in cases of F nor Athus or Whites, Fall-

ing of the Womb. Obstructed, Suppressed, or Painful Menses Irregularity of the menstrum periods, and the like; and is as effectual in curing all the forms of Kidney Diseases. By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of Nervous diseases and debility,

and thus prevents or relieves a great variety of other mal dies, as Spinal irritation. Neuralgia, St. Vitus' Dance Swooning, Epileptic Fits, Convulsions, &c. It cleanses the blood, excites the liver to healthy action tones the stomach, and gives good digestion, relieves the purifies the skin, equalises the circulation of the blood producing gentle warmth equally all over the body, and the insensible perspiration; relaxes all strictures and tight nervous system. Is not this then The medicine you pre-eminently need

But can any of these things be said of S. P. Townsend's COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPA BLE of DETERIORATION, and NEVER SPOILS,

while the other DOES; souring, fermenting, and blewing the bottles containing it into fragments; the sour, acid liquid ble compound be poisonous to the system !- What! put acid into a system already diseased with acid! What cause Dyspepsia but acid? Do we not all know that when food lence, heartburn, paipitation of the heart, liver complaint diarrhœa, dysentery, colic. and corruption of the blood What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swell lngs, Fever Sores, and all ulcerations internal and external It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more o less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood, or deranged circulations, and nearly all the ainments which affict human nature.

SOURING, FERMENTING, ACID "COM-POUND" OF S. P. TOWNSEND. nd yet he would fain have it understood that Old Dr. Jacob l'ownsend's Genuine Original Sarsaparilla, is an IMITA-Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Town-

send's article! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used 3. P. Townsend's FERMENTING COMPOUND We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having As S. P. Townsend is no doctor, and never was, is no

chemist, no pharmaceutist-knows no more of medicine o resume the BUTCHERING BUSINESS in said | disease than any other common, unscientific, unprofessional town on or about the 10th of October next. He man, what guarantee can the public have that they are retakes occasion here to return his thanks to his old virtues of the articles used in preparing it, and which are in ceiving a genuine scientific medicine, containing all the customers, and hopes by strict attention to the capable of changes which might render them the AGENTS of Disease instead of health. But what else should be expected from one who knows He will endeavor, at all times, to keep his stalls nothing comparatively of medicine or disease! It requires

> WEAK STOMACHS AND ENFEEBLED SYSTEMS. should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies o these diseases! It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing

bosom, to restore health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his Grand Universal Concentrated Remedy within the reach, and to the knowledge of all who need it,

that they may learn and know, by joyful experience, its Transcendent Power to Heal. DR. JACOB TOWNSEND. NEW YORK, Oct. 5, 1848.
Sir: -On the 20th of July, 1847, I was again attacked with rheumatism, and continued, under various prescrip-tions, to grow worse for at least two months. I became entirely helpless, incapable of feeding myself, or turning in bed, or helping myself any way. In this state I continued antil January, 1848, when I began to mend a little and improve gradually till the 1st May. This amendment was only so far as to be able to feed myself, though still incapa-ble of getting in or out of bed, or even turning in bed. I remained in this condition, with little or no change, until I fairly despaired of getting about again this season. On the 21st July, I was induced to try your Sarsaparilla; on the 24th, three days after taking the first dose, I AROSE IN BED, which I had not done before in ten months, and in

less than a week, I WALKED ACROSS THE ROOM with the aid of crutches. Since then, I have walked in the street: have gone alone from 36 Spruce-street to the Park; thence to Lovejoy's Hotel and back. I have been to 85 Nassau-street two different times, and am now frequently visiting my neighbors. During all this time, I have taken but two bottles of Old Dr. Townsend's Sarsaparilla, Oct. 4. I procured another bottle to-day (5th Oct.) I walked twice across the floor without the aid of crutches. I have also nearly recovered from obstruction of water, which gave me great distress. The pain in my back has likewise left me. I and my family have no earthly reason to ascribe my recovery to any other cause but to
OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

P. S.—Several able physicians despaired of my ever walk ing or even raising myself from my bed again. Principal Office 102 Nassau-street. N. Y. City. For sale in Wilmington, N. C., by WM. H. LIPPITT. Druggist and Chemist.
